Game & Event Management

These unique products track the time remaining in a Soccer match or make certain that Lightning is not going to threaten the participants and spectators at an event. Keep everyone safe and sound with Robic.

**SC-636W**
HEAT STRESS & COMFORT INDEX STOPWATCH

How warm is it? How warm (or cool) does it feel? The SC-636W removes the guessing and replaces it with accurate and responsive Heat Index readings, quickly and easily available at a glance.

- The SC-636W combines a professional level stopwatch with Temperature, Humidity, Heat Index and Dew Point readings
- Visual bar graph continually displays Heat and Comfort Level Indexes with a quick glance
- Accurately measures and displays Heat, Humidity, Heat Index and Dew Point readings in Fahrenheit and Celsius
- Two separate 30 Dual Memory Stopwatch modes, Lap or Dual Split Timing options with Lap Counter to 99 readings
- 1/100 second resolution stopwatch up to 10 hours
- Fastest, Average and Slowest Lap time memory recall
- Full function Countdown Timer from 1 second to 10 hours; Ultra-precise to 1/100 second resolution
- Time of Day, Daily Alarm and Calendar
- Water resistant
- One year warranty, Extra life replaceable battery

**StrikeAlert**
PERSONAL LIGHTNING DETECTOR

Provides early warning of lightning strikes as far away as 40 miles...take it wherever you go.

- An audible alarm sounds and a corresponding LED light illuminates accordingly, as lightning strikes at distances of within 6 miles, 6-12 miles, 12-24 miles and 24-40 miles
- Indicates if lightning strikes are approaching or moving away
- Small and impact resistant, clips to your belt, backpack or golf bag
- Low power consumption, up to 100 hours with two AAA batteries
- Easy to use, simply flip a switch to check lightning strike distance, track storm direction or view battery life

**StrikeAlert HD**
PERSONAL LIGHTNING DETECTOR

Presenting the next generation of personal lightning detection... exclusive 360 detection in all directions.

- The first personal lightning detector with a graphical display that shows you the lightning strike distance (from 0-40 miles away) as well as a 1-hour storm trend and intensity.
- Visually see the lightning strike distance and the 1-hour storm trend.
- 360 Lightning Detection: Unlike other lightning detectors, StrikeAlert HD tracks lightning in ALL directions – there are no blind spots.
- An audible and/or vibrate warning alerts you before (and while) lightning is within striking distance.
- LED indicators light accordingly at lightning distances of 24-40 miles, 12-24 miles, 6-12 miles and within 6 miles.
- Low Power consumption: Up to 80 hours of operation with two AA batteries (included).
Pedometers and Step Counters

Track the progress of your walking, running or fitness program! Analyze your performance in several ways with accuracy, reliability and ease of use.

**M309**
